

# DICE Monitoring

## Matrix Lite

Our cost-effective entry-level alarm and interactive video monitoring platform

### FEATURES & HIGHLIGHTS

- Limited version of AI, machine learning, and analytics with our robust video platform.
- Entry-level virtual doorman functions to enable visitor screening, accept deliveries, and more.
- Log in remotely and view cameras with limited frequency with virtual guard tour capabilities.
- Receive and process any signal from any device, including sensors, detectors, alarms, and videos.
- Produce custom scripts or workflows to standardize how operators handle events or signals.
- Identify callers with caller ID tools that display names, addresses, and other information.

Not every central station needs all the bells and whistles of Matrix Interactive. If you are in that category, Matrix Lite is an affordable entry-level alarm and interactive video monitoring platform.

With the ability to add features and modules or upgrade at any time, Matrix Lite is a powerful and robust platform that also offers the ability to receive and process alarm and event signals, handle alarms and events by priority, create custom scripts and procedures, and record operator interactions.

The New DICE Matrix Lite is the perfect central station monitoring entry-level unified solution to empower your business.
