

DICE Monitoring

Matrix 911

A configurable CAD solution with mass notification, remote activation, smart city video, AI, and GPS mapping

FEATURES & HIGHLIGHTS

- Deploy incident management software for 911 and municipalities with mass notification and remote device activation.
- Send dispatcher and law enforcement personnel live video access to accurately monitor events as they happen.
- Create predefined scripts to ensure dispatchers handle every situation with confidence and precision.
- Embed iPBX with cloud audio archiving to access or send recordings for reference and ensure accountability.
- Implement a smart city video platform with artificial intelligence, machine learning, analytics, and much more.

No matter the size of your PSAP, Matrix 911 is a configurable solution that provides critical information for public safety.

Matrix 911 offers tools that go beyond other computer aided dispatch (CAD) software such as mass notification and remote activation of devices, as well as a smart city video platform with AI and GPS mapping.

Dispatchers and first responders will be prepared with the ability to receive and view live video of the situation.
